

MALLADI RAVINDRA BABU

Full Stack Developer | Python | Django | React | JavaScript

Hyderabad, India | +91 93477 80954 | malladiravindra1@gmail.com

Portfolio: ravindra-plum.vercel.app | LinkedIn: linkedin.com/in/ravindra-babu-malladi | GitHub: github.com/malladiravindra

PROFESSIONAL SUMMARY

Full Stack Developer (fresher) with internship experience and five projects built with Django REST Framework, React and Python. Skilled in REST API design, PostgreSQL schema design, JWT authentication, Razorpay payment integration and real-time features using WebSockets, Celery and Redis, with hands-on exposure to LLM and RAG integration. Strong foundation in Data Structures & Algorithms (DSA) and problem solving. Seeking an entry-level Full Stack Developer / Python Developer / Django Developer role.

TECHNICAL SKILLS

Languages: Python 3, JavaScript (ES6+), TypeScript, SQL

Core Computer Science: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Problem Solving

Backend & Real-Time: Django, Django REST Framework (DRF), FastAPI, Django Channels, Celery, WebSockets, Redis

Frontend: React, Next.js, AngularJS, HTML5, CSS3

Databases: PostgreSQL, MySQL, SQLite (Schema Design, Indexing, Query Optimization)

APIs, Auth & Payments: REST API Design, JWT, OAuth 2.0, RBAC, OpenAPI, Razorpay Payment Gateway

AI Integration: LLM APIs, Retrieval-Augmented Generation (RAG), WhatsApp integration

Testing & Tools: Pytest, Selenium, Playwright, Git, GitHub, GitHub Actions (CI/CD), Postman, VS Code

PROFESSIONAL SKILLS

Analytical Thinking & Problem Solving | Clear Written and Verbal Communication | Team Collaboration | Time Management & Meeting Deadlines | Adaptability & Quick Learning | Attention to Detail | Ownership & Accountability

INTERSHIP EXPERIENCE

Python Full Stack Developer Intern — JSpiders, Hyderabad | Aug 2024 – Mar 2025

Tech Stack: Django, React, PostgreSQL, MySQL, Django REST Framework

- Built full-stack applications end-to-end (Django backend + React frontend) across 3+ modules using MVT and component-based architecture.
- Developed RESTful APIs with DRF and integrated them into React components for seamless data flow.
- Optimized PostgreSQL/MySQL queries and schemas, improving CRUD efficiency on datasets of 500+ records.
- Secured applications with JWT authentication and RBAC; tested APIs in Postman using a Git/GitHub workflow.

PROJECTS

IT Asset Management Platform | Aug 2026 – Oct 2026

Django, Django REST Framework, Next.js, React, JWT Authentication

- Built an enterprise asset management platform covering assets, departments, locations, people, vendors and purchase orders.
- Designed REST APIs across modular Django apps with JWT authentication and token refresh.
- Implemented a 3-step forgot-password flow (request, OTP verification, reset) wired end-to-end across frontend and backend.
- Built dashboard analytics summarizing asset counts, availability and assignment status.

Budget Management Platform | Apr 2026 – Aug 2026

Django REST Framework, React 19, TypeScript, PostgreSQL, WebSockets, Celery, Redis

- Architected a decoupled full-stack budgeting platform with a React 19 + TypeScript frontend and DRF backend.
- Built a drag-and-drop Kanban UI and budget dashboards with real-time WebSocket tracking and Celery background tasks.
- Added financial reporting: Excel/PDF export, Profit Margin KPI dashboard and role-based access control.
- Wrote a Playwright E2E test suite (factory_boy, Page Object Model) with GitHub Actions CI/CD.

Real-Time Chat Application with WhatsApp Integration | Apr 2025 – Nov 2025

React, Django REST Framework, WebSockets, Celery, Redis, LLM, RAG

- Built 1:1 and group messaging with Celery/Redis async notifications, offline message queuing, and Redis pub-sub typing and presence indicators.
- Integrated WhatsApp messaging with an LLM-powered assistant using Retrieval-Augmented Generation (RAG) to generate context-aware responses.

E-Commerce Accessories Store | Oct 2024 – Feb 2025

Django, DRF, Razorpay, Django Channels, WebSockets, Celery, Selenium

- Built a full-stack e-commerce platform with an OOP-based product catalog, cart and order management.
- Integrated Razorpay payments with signature verification, order confirmation and webhook status updates.
- Added real-time order notifications via Django Channels and WebSockets; used Celery for async tasks.
- Created a responsive storefront and a Selenium test suite covering cart, checkout and payment flows.

Automatic YouTube Scripting Tool

Python, YouTube Data API v3, OAuth 2.0

- Built a Python automation framework that cut manual content-creation effort by 60% (15+ hours/week saved).

ACHIEVEMENTS

- Completed a 7-month Python Full Stack Developer internship at JSpiders, delivering 3+ full-stack modules end-to-end.
- Designed and built five full-stack and automation projects spanning payments, real-time systems, analytics and AI integration.
- Set up automated quality pipelines using Playwright and Selenium test suites with GitHub Actions CI/CD.
- Built an automation tool that saved 15+ hours per week of manual content-creation effort (60% reduction).

EDUCATION

B.Tech, Computer Science & Engineering — Vikas Group of Institutions, JNTU Kakinada | 2020 – 2024

- CGPA: 7.2 / 10.0

Intermediate (MPC) — GSR & KSR Junior College | 2018 – 2020

- Mathematics, Physics, Chemistry
